

24" Government Dual Voltage Field Ward Refrigerator Freezer

Model # MS24RFSGRG

Unique Features

- Identified as NSN 4110-01-629-6841 Dual Voltage Field Ward Refrigerator/Freezer for US Government acquisition
- Electrical system capable of operating on either 115 volts / 60 Hz or 230 volts / 50 Hz electrical power for global compatibility
- Two power cables allow refrigerator operator to select an appropriately rated available power source
- Self-retracting carrying handles mounted on each side of the cabinet for ease of movement when in service
- Door restraining strap ensures door remains closed during movement
- Knob-type mechanical thermostat for selection of set point temperature is located in the toe grille below the door
- 22 gauge textured steel cabinet in olive-drab finish
- 4 over-sized leveling glides for improved stability on uneven or non-improved surfaces
- Operations and Maintenance manual shipped with each unit
- Each packaged unit is shipped banded to a wood shipping skid for warehouse storage and mechanical handling

Interior Features

- Glass shelf and plastic crisper tray in the bottom of the interior for secure storage of small items
- Two adjustable and removable wire shelves
- Three door shelves

Exterior Features

- Front-vented to allow building into casework or installed under benches without need for additional ventilation clearance
- "Box Style" door for easy mounting of inventory management system hardware
- Discrete top-edge-mounted door handle

Technical Specifications

- Accurate temperature control of contents within +3°/-3°C of set point.
- Recommended ambient temperature 18.3°C to 48.9°C (65°F to 120°F)
- Non-CFC 245FA blown foam insulation in cabinet walls and door, seals in the cold
- 4.4 cu.ft. of refrigerator space and 1.4 cu.ft. of freezer space
- Forced air condenser system removes heat and allows unit to be built into casework without loss of cooling performance
- Powerful compressor for fast pull-down time and temperature recovery after door opening or commodity loading
- Commercial CSA Listed and warrantied for commercial use

24" Government Dual Voltage Field Ward Refrigerator Freezer

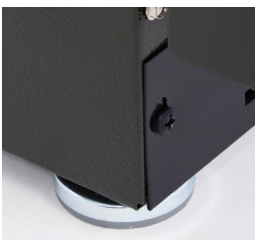

Model # MS24RFSGRG

Knob-type mechanical thermostat for selection of set point temperature is located in the toe grille below the door

Door restraining strap ensures door remains closed during movement

4 over-sized leveling glides for improved stability on uneven or non-improved surfaces

Two power cables allow refrigerator operator to select an appropriately rated available power source

Width	25 ⁷ / ₈ "
Interior Finish	White
Total Capacity	5.8 Cubic Feet
Refrigerator Capacity	4.4 Cubic Feet
Freezer Capacity	1.4 Cubic Feet
Toe Grill Finish	Black
Hinge	Hinge Pin
Handle	Discrete
Lock	No
Temperature Range	Ambient: 77°F (25°C) Refrigerator: 28°F to 46°F (-2.2°C to 7.8°C) Freezer: 12°F to 32°F (-11.1°C to 0°C)
Electrical Requirements	115V / 60 Hz / 18A or 230V / 50 Hz / 9A
Length of Power Cords	115V: 7 ft. 230V: 9 ft.
Product Dimensions	25 ⁷ / ₈ " W x 34 ¹ / ₄ " H x 24 ¹ / ₄ " D
Shipping Weight	168 lbs
Shipping Dimensions	28" L x 32" W x 41" H
Finishes	Olive Drab (Green)
Agency	CSA Listed
